

COMMITMENT STATEMENT INTERNATIONAL FEDERATION OF ACTORS (FIA) MOTIVATION TO CONTRIBUTE TO THE WORK OF THE ACCESS TO CULTURE PLATFORM

FIA believes in a strong role for civil society organisations in Europe and in the necessity to bring those closer together. As a member of two Culture Platforms, it is willing to promote a healthy public funding of culture in European countries, a working environment that is respectful of the performers that are employed, as well as a European culture sector rich in opportunities. All of this directly impacts the quality of the projects that they are engaged for, and in turn contributes to the development of the European identity through culture.
