

TRANSEUROPEHALLES WHO WE ARE

TransEuropeHalles is a European network of more than 50 independent cultural centres in 20 different countries. Founded in 1983 by seven progressive centres, the original members aimed to establish a platform for like-minded organisations all across Europe to strengthen and support each other's initiatives. In the last 30 years, TEH has actively expanded, continuing to take in new members, conducted over seventy meetings and a series of inter-European collaborative projects. In 2011, with the support of EC Culture Programme, TEH has launched Engine Room Europe dedicated to ensuring greater mobility, collaboration, capacity building and sustainability within the European independent cultural sector.

TEH is actively involved in the European dialogue on culture as a member of Platform for Intercultural Europe.
